## Eltomatic CVS-16 successfully started-up at Hammerich, Denmark

Eltomation has recently supplied and started-up the fully automatic, high capacity **Eltomatic CVS-16 Rotating Wood Wool Machine** at the Danish WWCB producer **Hammerich A/S**.

The Eltomatic CVS-16 can replace up to 8 conventional wood wool machines and provides for high quality wood wool, produced in a safe manner.

## World-wide interest for Wood Cement Products and Technologies at IIBCC Conference, Madrid

During the recent 11th **International Inorganic-Bonded Fiber Composite Conference**, held from Nov. 4-7<sup>th</sup> in Madrid, Spain, a special session on **Wood Cement Products** was attended by an audience of Scientists, R&D Professionals, and Board Producers from 33 different countries.

The Wood Cement Products session included the following lectures:

- **Träullit Large Wall Elements**, by Mr. M. Ryckert, Architect from Sweden;
- **Wood Strand Cement Board**, by Mr. Matt Aro, Scientist at the University of Minnesota, Natural Resources Research Institute, USA;
- **New Eltomation Plant Technologies for the combined production of WWCB, Large WWCB Wall Elements and EltoBoard**, by Mr. Bert van Elten, Eltomation BV.

These 3 lectures can be reviewed by clicking on each of these Titles, which will link you directly to the appropriate lecture on our website.

After the Conference a technical visit was organised to Träullit, Sweden to view the unique and efficient Large WWCB Wall Element building system ([www.träullit.se](http://www.träullit.se)).
