WWCB production Plant started up at LCM Korea

The first turn-key plant for the production of Wood Wool Cement Board (WWCB) in South Korea, has recently been started up. This plant has been supplied by Eltomation and is operated by the company **LCM (Leading Construction Materials)** located in the city of Dangjin-gun.

The plant is provided with an ELTOMATIC CVS-16 Wood Wool Machine, which allows the production of fine-fibre acoustic ceiling panels as well as standard WWCB for general insulation and construction purposes. LCM markets the WWCB products under its unique brand name PineTek. For further information on LCM, or to obtain offers for boards, please visit their website: www.lcmkorea.com
